COSI 152A – Web Application Development

# Creative Project Assignment 1

## Objectives:

- Practicing HTML elements
- Practicing assignment submission

## Task:

You are assigned to create an html document about yourself. The document should contain an introduction of you, your hobbies, your favorite movies, your favorite subjects and etc, and it is required that you should use at least once each of the following elements in your document:

- Heading elements <h1> and <h2>
- Image element <img/>
- Paragraph element <p>
- Anchor element <a>
- List element <ol> or <ul>
- Table element <table>
- Nested elements (any!)
- You can add more elements if you want

Make sure you are using proper tags in head part of your document for documentation of your file.

Note: You don't need to use any CSS styling to style your html file but make sure that you use <hr/> tag to separate your page in different main sections.

## Assignment submission guideline:

1. Rename your document as yourFirstname_yourLastname.html
2. Place your document and all other files that you are using (e.g. image) inside a folder named as yourFirstname_yourLastname_CPA1
3. Submit via Latte a zip file named yourFirstname_yourLastnameCPA1.zip
4. Please make sure to use exactly this file name, including identical capitalization.

## Submission deadline:

Please make sure to submit your assignment before 09/13/2023 11:59 PM
